Emory Arbor

A beautiful arbor sure to enhance the look of any location it is placed. It is decorated with classic ironwork side panels and a spear shaped finial on each of the four posts. At 8' tall 5' wide, and 2' deep it is the smallest of our arbors.

Large Arbor (Lattice)

For those that want a beautiful arbor that can be complimented by a climbing vine we offer this slightly larger arbor. Each side panel has a simple lattice pattern to help the climbing vines adorn the arbor. This arbor is 9' tall, 5' wide, and, 3' deep.

Large Arbor (Cattail)

If the arbor must stand out as a piece of art then our beautifully decorated arbors are the perfect solution. Its side panels are truly pieces of art. There is no need to cover this one up. It's great over a sidewalk, in front a gate, or anywhere it can be prominently displayed. This arbor is 9' tall, 5' wide, and, 3' deep.

Large Image Bench (Butterfly)

This is an attractive bench just right for two. This bench has an arched back rail to allow more room for the large butterfly. It's just as sturdy as it beautiful and would make a lovely addition to any porch or garden. It is 50" wide x 38" tall with an 18" deep seat.

Small Image Bench (Butterfly)

This is an attractive bench just right for two. This bench has a straight back rail and several smaller butterflies. It's just as sturdy as it beautiful and would make a lovely addition to any porch or garden. It is 50" wide x 38" tall with an 18" deep seat.

Branches Bench

This is an attractive bench just right for two. This bench has lots of uneven lines that resemble tree branches. It's just as sturdy as it beautiful and would make a lovely addition to any porch or garden. This bench is 50" wide x 38" tall with a 17" deep seat.

Vine Chair

This is an attractive chair perfect for one. This chair is inspired by the vine design seen in the signature vine trellises. It's just as sturdy as it beautiful and would make a lovely addition to any porch or garden. This bench is 22" wide x 47" tall with a 17" deep seat.

8 Stem Vine Trellis

The Vine Trellises are our signature pieces. This 8 stem design reaches a height of 90" and has a width of 36". It is perfect for growing plants but has an attractive unique design that can stand alone. For a decorative touch add two Dragonflies, Hummingbirds, or Butterflies. (Dragonflies shown)

Note: Vine trellises and vine benches and chairs compliment each other perfectly.

5 Stem Vine Trellis

While just as attractive, this 5 stem version of the trellis is a little smaller for applications where you want something large enough to stand out but don't have the room for a piece as large as the 8 stem version. It stands 77" tall and has a width of 38". For a decorative touch add two Dragonflies, Hummingbirds, or Butterflies.

Note: Vine trellises and vine benches and chairs compliment each other perfectly.

2 Panel Trellis

If your garden could be enhanced by a shorter, wider trellis, we offer this fence style trellis. Its classic iron work and arrow finished posts give it a truly elegant look. This trellis stands only 56" tall and covers 33" of width.

Note: This trellis in multiples cover more space with one look.

Hummingbird Trellis

For a large trellis that needs no plants to catch the eye of anyone that walks into your garden we have the hummingbird trellis. This piece boasts an impressive 82" tall with a 26" width. The hummingbird perched inside an 18" diameter circle hovers under a welcome sign.

Classic Trellis

If you prefer a more traditional look we offer our Classic Trellis. Its simple lines and curls are attractive and give your plants all the support they need without being the center of attention. At 79" tall and 38" wide it will accommodate even large vines.

Euro Trellis

To grow your plants on a trellis that will be a feature due its modern design we offer our Euro Trellis. The curvy lines reach a height of 81" and are held together with the horizontal rails of up to 22". It's a perfect trellis for those looking for a touch of style.

Cage Tower

At 59" tall this is a shorter tower than most. Its three dimensional style allows for a fuller look than the trellis. With a diameter of 25" the bird cage design is perfect for growing plants from the center out.

The center of the tower has a hook ready for hanging, potted plants.

Ring Tower

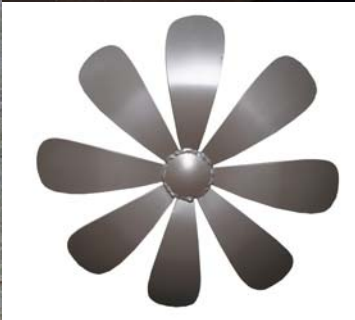

A tower similar in concept to the cage tower except taller at a height of 7' tall and thinner at 12" inches in diameter. It makes a great center piece by elevating you garden without taking up to much space.

Pyramid Tower

Our largest tower is a charismatic piece that is sure to draw a lot of attention due to its bold angles and impressive size. The 2' x 2' footprint supports a 7' foot tall tower of angled iron. It's the perfect choice for heavy vines, including the largest of prized roses.
